

## **Newmarket Joggers Junior Membership Fee – Family Discount Proposal – November 2023**

The purpose of this document is to outline the proposal of introducing a family discount for junior membership.

The committee are proposing a discounted junior fee will be available on the following condition:

- If a parent/guardian of a junior(s) is a fully paid senior member of the club then their junior(s) can join the club at a discounted membership of £30 for the year.

The reasons for this are:

- To help with the financial cost for families that have a commitment of 1 or more junior members of the club thus helping retain the membership of the club.
- Basing this on just one senior member per family helps ensure this is easily manageable and non-discriminatory.
- It's hoped that this may encourage some parents/guardians to join as senior members if they are not currently thus helping increase the membership of the club.

The fee of £30 has been proposed as this is the same as 2<sup>nd</sup> claim membership and means that there are only 2 memberships costs.

This proposal is subject to approval at the 2023 AGM and if accepted will be put into place for the start of the new membership year in April 2024.
